NEW Real-Time Bus Arrival Text Messaging Service

Place customers can now get real-time information about when the next bus is arriving at their stop by sending a text message (or "SMS") with a mobile phone.

How do I get the next bus arrival time?

Type "41411" as the phone number to which you are sending a text message. Then, in the body of the message, type "Pace", then a space, then the code number you see on the bus stop sign. When you send that text message, a brief text message should come to your phone in a matter of seconds.

If the bus stop sign at which you regularly board does not yet have a code, you can visit Bus Tracker at PaceBus.com to look up the real-time bus arrival information for your stop and, at the same time, obtain the code number which you can use for future reference.

In addition to this text messaging service, there are several ways riders can get real-time bus arrival information for your stop and, at the same time, obtain the code number which you can use for future reference.

As of August 14, 2016, Route 395 operates under the Posted Stops Only policy. You will be able to get on (board) and off (alight) Route 395 only at Pace posted stop signs. Look for these instruction symbols on printed schedules.

This symbol indicates that a route operates on aPosted Stops Only policy.

Some other routes also operate on a Posted Stops Only policy along the entire route. In addition, all routes that travel into Chicago operate on a Posted Stops Only policy within city limits. Place is currently working to convert most routes in its network to this type of operation.
